I would highly recommend Nimbus Roofing to anyone! They were extremely professional and easy to work with. They went above and beyond to make sure no detail was overlooked and worked with our insurance to make sure it all taken care of on that end. Everything moved along quickly and they were great communicators everything step of the way. Huge thanks to Chris Steadman and the team!!

Dustin was incredible. He was so communicative throughout the entire process. The day of installation was painless and quick - which is saying a lot since I work from home with my partner. They were done before early afternoon, and not a single material was left behind. The only evidence they had been there was the gorgeous roof, and the sign in the front yard. I highly recommend them.

Dustin Moore with Nimbus Roofing recently replaced our roof, rain gutters, window screens and interior ceiling paint. Dustin was on top of all jobs and was easily accessible and responsive. We couldn't be happier with the quality of work Dustin and his employees showed throughout the process! Everyone was first class from start to finish! If you need a new roof I highly recommend Dustin Moore and Nimbus Roofing.

Chris was great. He came out quick to inspect our roof several times in the past years after all the crazy storms. He was honest about us NOT needing to replace it yet. Several of my neighbors have used them for roof replacement and all were very happy. Great company!
